

# OBSERVATION FORM

As employer, it is your responsibility to ensure your operators receive training specific to the equipment and gear they will be using, as well as the situation in which that equipment will be used. The training presentation and written exam satisfies the requirements for classroom training. But to be in complete compliance, regulations dictate that operators/workers must also pass a practical examination administered by a qualified trainer.

This is the employer's opportunity to observe trainees in a controlled environment in order to assess whether they have successfully applied the principles from the classroom instruction.

While regulations do not specifically outline the extent of such an observation, you should take ample time to observe the trainee practicing the tasks they will be performing on the work site. At the very least, this should include carrying out a pre-shift inspection as well as other basic principles that govern safe operations or work practices.

If any voice and hand signals are required as part of the job, the trainee should also demonstrate an understanding of these signals and their corresponding functions.

To assist with this responsibility, we have provided a general form you may use when administering the practical examination. Feel free to modify this guide to create one more specific to your employee, equipment, worksite, or job needs.

## HOW TO USE IT:

- 1** Simply **OBSERVE** the trainee's competency based on the modules included.
- 2** Follow the list, **CHECKING THE BOX** to indicate whether they satisfactorily performed each task.
- 3** When done, **SIGN AND FILE** this form along with the examination record and certificate.

**WORK SAFE, STAY SAFE**

# OBSERVATION FORM

EMPLOYEE'S NAME: \_\_\_\_\_ TOPIC/EQUIPMENT: \_\_\_\_\_

EVALUATOR'S NAME: \_\_\_\_\_ TITLE: \_\_\_\_\_

The purpose of the evaluation form is to aid the evaluator in assessing the worker's competency to safely apply in the field the principles learned in the classroom. Items may be added or deleted depending on the working environment or the needs of your employees and company.

SATISFACTORY?		TASK	REMARKS
YES	NO		
PRE-SHIFT:			
		List Common Moisture Areas for Mold to Grow	
		Mold Appearance & Description	
		Gloves	
		Respirator	
		Other PPE	
OPERATIONS:			
		Process of Remediation	
		How to Decide if a Professional Does the Remediation or Not	
		Containment Methods	
ADDITIONAL/POST-SHIFT:			
		Disposal of Contaminants & Contaminated Materials	
		Equipment Take Down & Clean Up
