About the Kit

- **OSHA Compliant** — this robust training kit gives you all the materials you need to train operators and ensure OSHA compliance.
- **By Trainers Who Know** — use the exact materials we use when we go on-site across the country to certify workers and trainers.
- **Reusable** — no buying extra student manuals or exams. You get the files. Use them, print them out as often as needed.
- **Full Customization** — make it work for you. Change what you want: images, slides, exams, etc. You can even replace our logo with yours!
- **No More Wasted Time** — easily tiered to fit your time. Put on a full-day class or cut it down to 4 or 2-hour refresher classes.
- **Global Recognition** — our DIY training kits are used by companies small and large and professional trainers across the U.S. and beyond: from Mexico to the UK to Africa to the United Arab Emirates, just to name a few.

YOUR HUB FOR SAFETY TRAINING AND CERTIFICATIONS

No matter the industry, safety training is required. Whether you are training workers, operators, or trainers; or whether you prefer on-site training, online training, videos, or to do it yourself with our customizable DIY training kits, we have you covered. Available in English and Spanish, for compliance with OSHA or Canada.
